

By The Sea

Dream Waters

Hailing from the shores of Merseyside, **By The Sea** are one of the most exciting new UK bands around at the moment. After a run of sold-out 7" singles overseas, the band are set to release their debut single for North America on Shelflife.

The new double A-side single features tracks "Dream Waters" b/w "Eveline" which were recorded and produced with close friend Bill Ryder-Jones (Double Six Records) in various bedrooms, garages and churches. "Dream Waters" boasts their hallmark guitar sound and reverb-soaked melodies, while "Eveline" shimmers and shines showing off the band's ability to write perfect pop songs. Two tracks that evoke the soul of seminal 80s indie bands that helped inspire them.

The single is the first glimpse of the band's debut album, set for release in November through Dell'Orso Records on CD and The Great Pop Supplement on LP. This highly anticipated collection will be the culmination of two years of sold out gigs, huge word of mouth support and recent shows with **Veronica Falls**, **Memoryhouse**, **Still Corners**, **Widowspeak**, **Crystal Antlers** and **Vetiver**. By The Sea's first single "Waltz Away" scored plays on Andrew Weatherall's BBC Radio 6Music show last year.

Dream Waters will be available October 6th on lovely two-tone colored vinyl limited to 100 hand numbered copies for North America.
